

HOW CAN WE HELP YOU SAVE KITTENS?

For more than ten years, The National Kitten Coalition has been increasing survival rates of kittens by providing quality educational presentations and materials to animal-welfare professionals and volunteers across our country.

We are dedicated to helping those who help kittens, and we work with you to provide your staff and volunteers with educational programs to fit your needs and interests.

Our vision is that all neonatal, sick and other at-risk kittens are given a chance to grow and thrive through life-saving educational programs and positive partnerships among shelters, rescues, veterinarians and the public.

Thank you for all you do to help kittens. We are honored to work with you to save lives.

Please note: Although our individual team members each have years of experience caring for kittens, The National Kitten Coalition as an organization does not provide direct animal care. We do not take in or adopt out animals. Instead, our mission is to provide education and training to those on the front lines of animal welfare.

If you have a kitten in need of care or rescue, please contact your local veterinarian, animal shelter or rescue organization.

**Your support of our
programs saves lives!**

Thank you!

NATIONAL KITTEN COALITION

**Please join us in
our mission to
increase survival
rates of kittens.**

ABOUT US

The National Kitten Coalition is a 501(c)(3) nonprofit organization dedicated to increasing survival rates of kittens.

We accomplish our mission by:

- Presenting educational events to shelter and veterinary staff, rescue groups and fosters on ways to provide high-quality, cost-effective care;
- Providing outreach and educational materials to animal-welfare professionals and the public; and
- Promoting cooperation and information sharing within the animal-welfare and veterinary communities.

OUR VALUES

Compassion: To operate with kindness, caring and understanding in our partnerships with the animal-welfare community to support their life-saving efforts.

Service: To provide high quality, useful education and training to the animal-welfare community to benefit kittens.

Commitment: To devote our skills and knowledge to increasing survival rates of kittens.

Excellence: To stay current on kitten-care information and best practices, and to conduct ourselves with professionalism and integrity in all interactions.

OUR PROGRAMS

The National Kitten Coalition offers full-day workshops, shorter classes, webinars and consultation services. Our experts are also available to speak at conferences or other events on topics mutually agreed upon by the Coalition and the hosting organization. We are an AAVSB RACE-approved provider for continuing education programs and pride ourselves in providing well-researched, practical information to help staff and volunteers save more lives.

Workshops

Our full-day workshops cover a wide range of topics and vital kitten-care information. In addition to our core curriculum, most sessions are customized for the host organizations to match their needs. Some workshop topics include neonatal care, pregnancy, fading kitten syndrome, daily care and housing for kittens of all ages, medical issues, infectious diseases, recognizing emergencies, sanitation and supplies, foster and staff training, working with and educating clients, and the latest in life-saving research. Many other topics are available, and we work with you to tailor presentations according to your interests and learning objectives.

Webinars

We provide webinars on a variety of topics throughout the year. Most webinars are free and available to the public, others are customized “Webinar Workshops” designed specifically for an individual animal shelter or veterinary clinic. As with our on-site workshops, our team will work with you to plan and present topic content to meet your needs.

Consultation Services

Coalition consultants are available to assist you with starting or expanding your foster program. We can also advise you on how to set up and operate a sustainable kitten nursery.

Speaking Engagements

We speak at local, regional and national conferences presenting life-saving content to animal welfare and veterinary communities. Other venues include appearances at community events and speaking at schools for veterinarians and veterinary technicians.

The Coalition’s instructor team has years of experience in many areas of animal welfare including as shelter staff, foster volunteers and veterinary professionals. We strive to keep up-to-date on the latest advancements in kitten care and often lead the way in finding new and successful ways to save even more lives. Let us help you in your life-saving efforts!
