

The National Kitten Coalition Collaborates with Rhode Island Kitten Kits to Warm Kittens

February 19, 2024 — Rhode Island Kitten Kits, located in Coventry, RI, announced today a gift of 30 SnuggleSafe® Microwave HeatPads from the National Kitten Coalition, a leading organization dedicated to the well-being of kittens. These microwavable heatpads will provide comfort and warmth to kittens in need within the Rhode Island community.

Very young orphan kittens cannot regulate their body temperature and need an external heat source to stay warm. SnuggleSafe® Microwave HeatPads are designed with the utmost care to ensure the optimal comfort and security of young feline companions. The National Kitten Coalition encourages kitten caregivers to always ensure young kittens are warm as a first step in their care, and a SnuggleSafe® Microwave HeatPad is an excellent option.

Rhode Island Kitten Kits, known also for its commitment to the welfare of kittens, expressed gratitude for the thoughtful donation. The SnuggleSafe® Microwave HeatPads will be included in its upcoming release of kitten care kits created for rescues, fosters, and hospitals.

"We are incredibly grateful to the National Kitten Coalition for their generous donation of SnuggleSafe® Microwave HeatPads. They will make a significant difference in the lives of the kittens under our care, providing them with warmth, security, and a sense of comfort during a crucial stage of their development," said Becky Martin, President of Rhode Island Kitten Kits.

The National Kitten Coalition encourages other organizations and individuals to join in supporting the welfare of kittens across the nation.
